International Symposium on Earthquake Forecasting to
Commemorate the 50th Anniversary of the 1975
Haicheng *M*7.3 Earthquake, Liaoning Province,
Northeast China
8-11 July, 2025

Invitation Letter

29 April, 2025

Roberto Colonna
University of Basilicata

Dear Roberto Colonna,
Haicheng *M*7.3 earthquake occurred in Liaoning Province, Northeast China, on February 4, 1975, this was the first successful imminent prediction of a large earthquake which played an important role in the mitigation of regional earthquake disasters. Taking the opportunity of the 50th anniversary of the successful prediction of the Haicheng earthquake, Institute of Earthquake Forecasting, China Earthquake Administration (IEF, CEA), State Key Laboratory of Earthquake Dynamics and Forecasting, and China Seismic Experimental Site (CSES), in cooperation with the International Association of Seismology and Physics of the Earth's Interior (IASPEI), APEC Cooperation for Earthquake Science (ACES), Collaboratory for the Study of Earthquake Predictability (CSEP) China Center (CN-CSEP), and the Young Earth Scientists Network in China (YESChina), we are organizing the International Symposium on Earthquake Forecasting to Commemorate the 50th Anniversary of the 1975 Haicheng *M*7.3 Earthquake on 8-11 July, 2025 in Shenyang, Liaoning, China.

The Symposium will focus on the characteristics of global large earthquakes and the practices of earthquake forecasting, mainly consisting of research work on recent destructive earthquakes, discussion on typical scientific problems, and innovative achievements of earthquake forecasting and risk assessment. The preliminary themes include ***Regional dynamic models of large earthquakes, Dynamic process of in-situ recurrence of large earthquakes, and Earthquake hazard and risk assessment.***

On behalf of the organizer of the Symposium, we are honored and pleased to invite you to participate in the international symposium. Any topics related to the research and technique methods of earthquake forecasting and prediction would be welcomed.

For more information, please visit the symposium website: <https://www.ief.ac.cn/hceq50/>.

We are looking forward to your participation and glad to receive your reply.

With best regards,

Prof. Shao Zhigang
Director
Institute of Earthquake Forecasting, CEA
