Oggetto: Paper invited for oral presentation at Compumag 2013

Dear Raffaele Martone,

The Editorial Board of Compumag 2013 would like to kindly invite you to present the following paper in an oral session at the conference:

ID-587 "A Parametrical Determination of the Influence Region of Holes in Electromagnetic Devices by the Compensation Theorem"

This paper is currently scheduled in a poster session, but if you accept this, we will move it to an oral session.

Please let us know as soon as possible whether you (or one of your co-authors) can present the paper in oral or you prefer to stay in the poster session.

I look forward to your answer.

Yours sincerely,
Szabolcs Gyimothy
/ co-chairman of Compumag 2013 /
